How to View a Roster with Guest Players

Viewing Guest Players

Guest players are managed by the event, and are not part of a team's permanent roster. As a part of this, there is a special view of a team's roster created for each event. To accurately view the Guest Players, you will need to view the specific event you are looking for.

This is done by viewing the team page and accessing their roster information. You can locate the team in multiple ways:

- Team Search (on USSSA.com home page)
- Look Who's Coming (on the Event page, listing of teams)
- Game Center (on the Event page) in any of the pages there that have teams listed (Schedule, Standings, etc.)

Once you get to the team page, the following instructions will show you where to look and what you are looking for.
